AUSTIN TEXAS
READ BEFORE MAKING ORDER

SHIPPING SEASON extends from about November 15 to April 15. GUARANTEE. We guarantee safe arrival, in good condition, of our stock, and beg to be notified if it is otherwise. Complaints, to receive attention, must be made on receipt of goods.

TRUE TO NAME. Every tree and plant sent out we warrant to be healthy and true to name. If any should prove not to be, we will return amount paid us for them, or furnish other trees. But it is agreed we shall not be liable to purchaser for any further claim or damages.

CERTIFICATE OF INSPECTION with every shipment.

WE PAY EXPRESS IN TEXAS ON ORDERS FOR $3.00 OR OVER, AND IN THE UNITED STATES, FOR $10.00 OR OVER. Customers thus will know exactly what their trees will cost, delivered. This is a big item.

PARCEL POST. Particular attention given to parcel post orders, for convenience of customers who can not receive express easily. Fairly large orders can be sent this way, and often cheaper than by express.

OUR SHIPPING FACILITIES are unequaled. We have a large frost-proof packing house, 120x180 feet. Leading railroads and express companies.

EXPLICIT DIRECTIONS for marking and shipping orders should always be given. Give express and post office also.

TERMS CASH, or C. O. D., unless otherwise agreed beforehand. We accept checks in payment.

WE REPLACE TREES THAT DIE FIRST YEAR AT HALF PRICE, if customer has taken reasonable care with trees.

SELECTION OF VARIETIES. Unless particular varieties are wanted, it is a good idea to leave selection to us, as we know the needs of all different sections, but state whether fruit is wanted for home or market, what months of ripening, class of soil, etc. If we are out of a particular variety ordered, we will substitute another as good or better, unless requested not to do so.

DIVERSIFICATION OR BANKRUPTCY

Which Do You Choose?
For the Farmer or City Man.

In the midst of the season of the so-called money crop, King Cotton, the South in 1914 found herself face to face, at least temporarily, with the hardest times she ever experienced in times of peace, with expenses to be paid for making a crop she could not sell.

The question in the mind of every intelligent man for years has been, WILL WE LEARN TO DIVERSIFY, AND BE ABLE TO LIVE AT HOME? The time is here when the people must raise more crops, which are sure of a market or can be used at home.

We present here a crop which every family should produce, whether on a farm or a small city lot.

FRUIT.

Do not say you cannot grow fruit on your soil. We can select you varieties of several kinds of fruit that will succeed with YOU.

The farm home without an abundance of fruit all the season, and canned for the winter, is misnamed. The city home without some fruit trees is not what it should be.

We estimate that if every home in the South had twelve fruit trees and two dozen berry plants, properly selected, it would mean fifteen million dollars more value of products each year, besides the inestimable value of health and pleasure.

PRICES, TO APRIL, 1915.

Our stock is the largest and finest we ever grew in the fifty years of our experience. For this season we are making the lowest prices in our history. This is an opportunity for planting a commercial orchard, or for every home to get the best of fruit trees to be had.

Feel free to write us for any special information. We will gladly give you advice as to selection of one tree, if that is what you need.

Be sure to plant something, for pleasure and profit.

Plant some pecans and hybrid berries. They bear every year.
A $75.00 parcel post shipment going to a customer in New Mexico, 80 miles from a railroad. He was pleased. We can deliver to your door.

A four hundred dollar carload shipment of ornamentals for a Texas home.
STANDARD AND SPECIAL FRUITS

PEACH, PLUM, PEAR, APPLE, AND APRICOT

Customers will notice these two classes. Our standard varieties are those of oldest standing, and embrace only such as have proven themselves worthy of propagation. Our list is selected from many hundreds of varieties which we have tested. Such names as Elberta, Mamie Ross, Alexander, Stinson, etc., are familiar to every one and indicate what are our Standard varieties.

Our SPECIAL varieties are of more recent introduction, and are, we can safely say, the choice of all varieties in the world. We have either secured these after long years and great expense of testing and improving, or have secured the right to them by purchase from other experimentors and propagators. Most of them are protected by trade marks and copyrights. All have been thoroughly tested and proven.

It is the pleasure and pride of our lives to be able to offer our Specials, which excel in all points desirable for fruits. Every orchard should contain them.

F. indicates freestone; C., cling; S. C., semi-cling, meaning not distinctively freestone or cling.

MAY PEACHES.

ALEXANDER. F. May 20. Large, white with red cheek. Reliable.
GREENSBORO. F. May 27. Large, white, oblong. Large and prolific.

JUNE PEACHES.

TRIUMPH. F. June 2. Medium size, yellow and red. Heavy bearer.
IMPERIAL. F. June 10. Honey type, fine for southern planting.
DEWEY. F. June 12. Earliest of pure yellow freestones.
HONEY. F. June 15. Medium size, white, sweetest. For the South.
RIVERS. F. June 20. White, red cheek, tender. Young bearer.
PALLAS. F. June 25. Medium, white, deliciously sweet. Regular bearer. Honey type.
MAMIE ROSS. S. C. June 25. Large, white, red cheek. Very prolific.
JULY PEACHES.

SUGAR. F. July 2. Very productive, sweet, of Honey type.
CARMAN. F. July 5. Cross of Elberta and Mamie Ross. Large, white, red cheek.
CRAWFORD EARLY. F. July 5. Large, yellow-flesh, highly colored. 
FAMILY FAVORITE. F., July 5. Medium, white and red. Needed in every orchard.
THURBER. F. July 8. White, red cheek. Most reliable bearer.
CHAMPION...F. July 10. Large superb, white. Highest quality.
ELBERTA. F. July 10. Large, yellow flesh, red cheek. Fine shipper.
JACKSON. C. July 10. Like Chinese Cling, but better bearer.
MIXON FREE. F. July 12. White, with blush. Luscious.
RUPLEY. C. July 12. Firm, round, medium, yellow. For coast section.
CROSBY. F. July 15. Productive, medium, round, yellow. For the West.
STUMP WORLD. F. July 15. Large, white. Reliable.
PHILLIPS. C. July 15. Yellow, firm. Favorite in California.
STANFORD. C. July 15. Large, white and yellow. Firm, delicious.
CRAWFORD LATE. F. July 20. Large, yellow.
MATTHEW'S BEAUTY. F. July 20. Large, yellow, excellent quality.

AUGUST PEACHES.

INDIAN CLING. C. Aug. 1. Medium, red meat. Old fashioned Indian.
SYLPHIDE. C. Aug. 5. Large, light color. Wonderfully sure bearer.
SNOW CLING. C. Aug. 10. White, firm, very profitable variety.
HEATH. C. Aug. 25. Medium, white, fine old variety.
SALWAY. F. Aug. 25. Yellow. Ripens month later in North Texas.

SEPTEMBER PEACHES.

EQUINOX. F. Sept. 22. Large, yellow. Like finest Elberta.

OCTOBER PEACHES.

BELL'S OCTOBER. F. Oct. 1. Large, fine, yellow, red cheek.
STINSON. C. Oct. 10. White, red cheek. Regular, one of best all-around late peaches.

SPECIAL PEACHES—MAY.

EARLY WHEELER. C. May. The finest early peach, specially for North and Northwest Texas. Large, with clear meat, overspread with red. Sold under royalty by contract with Texas Nursery Co. Prices: 50c each, $5.00 a dozen; $25.00 a 100; 300 trees, $60.00; 500 trees, $80.00.
Governor Lanham Peach, July 15, 11 Inches in Circumference

SPECIAL PEACHES—JUNE.

SURTIES. F. June 20. 50 cents. Fruit like Honey, but not so pointed. Tree robust grower, and prolific bearer. Has borne full, when nearly all others failed. We control full rights to Surties.

ARP BEAUTY. F. June 20. 50 cents. Yellow with red cheek. Like an Elberta, but earlier.

HOBSON. S. C. June 20. 50 cents. An improved Mamie Ross, ripening earlier.

BEST JUNE. S. C. June 28. 50 cents. Light color, red cheek. Fruit large, most delicious. Regular and prolific bearer. A prize for Central and South Texas.

SPECIAL PEACHES—JULY.

LEONA. F. July 8. 50 cents. Like Elberta in color and size, but better quality, large, yellow with red cheek. Ripens several days earlier, and is immensely more prolific and regular in bearing. As this peach becomes known, it will entirely supplant Elberta. We have tested it twelve years. Subject to trade mark.

LANE. C. July 10. 50 cents. Large, golden yellow, fruit firm and all of uniform size. This tree loaded with fruit is one of the most beautiful sights we ever beheld. Subject to trade mark.

BURNAP. C. July 10. 50 cents. Large, white, resembling Chinese Cling, but most prolific of all extra large peaches.

CHILOW. C. July 10. Pure yellow. Large. One of most regular bearing of all varieties. Flavor is always very high. Few if any peaches surpass Chilow in quality and quantity of crops. Best canned fruit we ever tasted on the market were Chilows sliced in one-eighths.

ERNST. F. July 15. 50 cents. Medium large, white. Bears very heavily, and has never failed in many years we have known it. We control full rights.

GOV. LANHAM. C. July 15. $1.00. One of most beautiful and largest. Yellow, with bright red shadings. Firm, best of shippers. Tree heavy bearer.

TAYLOR. F. July 15. 50 cents. Like biggest, brightest Elberta, rather more yellow. Few days later. Very productive.

GOV. CAMPBELL. C. July 20. 50 cents. Large, white, productive.

SMITH INDIAN. C. July 25. 50 cents. Old fashioned, red-flesh, juicy
Indian, that will reach good size. Has borne on bad fruit years, and proven worthy of being in every orchard.

SPECIAL PEACHES—AUGUST.

AUGBERT. F. Aug. 1. 50 cents. Yellow, resembling Elberta, ripening later. More prolific, and fruit is of highest quality. Has been a most profitable peach on sandy or black soil. Trade marked.

AUGUSTA. F. Aug. 15. 50 cents. Extra sure bearer, past mid-season. Large yellow, finest quality. Like best Elberta.

SPECIAL PEACHES—SEPTEMBER.

WEAVER. C. Sept. 1. 50 cents. Yellow, overspread with red, often measuring ten inches. Flesh very firm, of best quality. A splendid peach for home or commercial use.

RAMSEY'S LATE. C. Sept. 10. 50 cents. White, very productive. As good and bright as a June peach.

SPECIAL PEACHES—OCTOBER.

OCTOBERTA. F. Oct. 1. 50 cents. Like a fine Elberta, but one of latest peaches. Has created sensations where tried.

---

The Belle Peaches

Price: Good trees, 25 cents each; $2.75 a dozen; $18.00 a 100.

In recent bad fruit years there has arisen a demand for varieties that are sure bearers. A fine large peach that does not bear often is not as valuable as a smaller kind that bears regularly. As we had been trying for fifteen years to secure a collection of sure-bearers, regardless of size of the fruit, we were able to introduce the following varieties a few years ago, and they have proven well up to our expectations.

A report from Gaines County for 1914 tells us of a Belle peach tree loaded with fruit seven inches around. Our Belles have been chosen from out of 200,000 seedlings. They are not large, but taste good. They are regular bearers.

While we selected these from seedling trees, in propagating we have to bud, so these are not seedling trees, but named kinds that will bear. They ripen in July and August.

ANABEL. White cling.
CHRISTABEL. Yellow cling.
CLARABEL. White freestone.
CRADDIEBEL. Yellow cling.
INDIANBEL. Indian cling.
JESSIEBEL. White cling.
MERCYBEL. Yellow cling.
SMITHABEL. White freestone.
WINNIEBEL. Yellow freestone.

LIST OF BEST PEACHES FOR TERRITORY BELOW FOOT OF PLAINS AND FOR NORTH-CENTRAL PRAIRIES

PLUM

Of all the fruits that grow in this country, we consider plums one of the most successful. A few years ago all the varieties that were worthy of planting ripened within a period of six weeks. Now the season is extended to five months—from May 1 to October 1.

Then the only good variety was the Wild Goose. Now there are dozens that are of more value.

NOTE: The best one-year trees of Golden Beauty and several Chickasaw varieties are often less than four feet high.

ABUNDANCE. June 10. Vigorou tree. Fruit large, round, red, very sweet.

AMERICA. July 1. Enormously productive. Medium to large, yellow and red.

ARKANSAS LOMBARD. July 5. Medium, round red. Sure bearer.

BARTLETT. June 15. Fruit red, with yellow spots. Flesh salmon-colored. Quality fine, tastes like Bartlett pear.

BOTAN. June 10. Same as Abundance.

BURBANK. June 25. Fruit large, firm, red. Youngest bearer, and most prolific.

CHABOT. July 10. Large, firm, yellowish flesh.

CLIFFORD. June 30. Large, red, acid.

EXCELSIOR. July 1. Purplish red, large. Succeeds far south.

HALE. June 1. Strong tree, bears young. Large, red, sweet.

HYTANKIO. July 10. Large, dark red, firm.

NONA. June 28. Large, pointed, bright red. Flesh yellow, juicy; high quality.

NORMAND. July. Fruit large, apple-shape, pale yellow. Has wide range.

POOL'S PRIDE. July 5. Red, medium, oblong, very prolific.

RED JUNE. July 30. Large, round, red, prolific.

ROBINSON. July. Medium, brilliant red. Fine for jelly.
SPECIAL PLUMS

SATSUMA. July 10. Large, smoky red, flesh red, firm, superb flavor.
SHIRO. July. Large, oblong, yellow. Fine keeper. Tree vigorous.
WICKSON. July. Tree upright. Fruit large, heart-shape. Red, flesh yellow, delicious.
WOOTEN. June. Similar to Wild Goose, but later, more productive.

BILONA. (Subject to trade mark). 50 cents. June 25. Seems to be a cross between the old firm Japanese plum, Chabot, and our big native wild plum, combining a little of the flavor of both and yet far superior to either. A combination plum, good for eating, preserving, jam, and jelly. But its strongest point is in the fact that it has been loaded right along these recent years, when all others have varied some on their crops. Every orchard needs Bilona.

BIOLA. (Subject to trade mark). 50 cents. September. Originated with Mr. H. A. Biles, Denton County, with BILONA. Excels on nearly all scores, especially size, quality, and lateness. Looks like an extra large, sweet Botan, but firmer, of very best quality, and ripens after all other such plums are gone. Truly an epoch-making plum.

DORIS. 50 cents. June 5. Large, round, dark red. Earlier than other plums of its class. Superlatively sweet, great keeper. Skin very thin, but strong.

GOLD. 50 cents. July. Large, firm, glowing yellow, with some red. Has a wide range, sure bearer, and a money maker. Sold under royalty to Stark Bros.

GONZALES. 50 cents. June 15. Introduced by us 1898. Color bril-
Happiness plum.

A LIST OF GOOD PLUMS FOR SOUTH TEXAS

LIST OF GOOD PLUMS FOR CENTRAL, EAST, AND NORTH TEXAS

LIST OF PLUMS FOR THE PLAINS

PEAR

Plant from 16 to 24 feet each way. Kieffer, Garber, and Le Conte should be cut back for two or three years to make the tree spread. Kieffer has proven commercially profitable in nearly every section of the State and is almost immune against blight.

SPECIAL PEAR.

See remarks at top of Page 2.

ALAMO. $1.00. July. A seedling of North Texas origin. Highly recommended by the introducer, Mr. J. S. Kerr.

CANNER’S. 50 cents. August. Tree vigorous, upright, ornamental; large leaves; bears very young. Fruit apple-shaped, large, russety-yellow.

JAPAN RUSSETT. 50 cents. August. Similar to Canner's Japan. Every orchard should contain some of these because they bear regularly and are firm and fine for preserves.

MAGNOLIA. $1.00. July and August. Most beautiful tree and fruit; bears young; fruit flattened at the ends, without any neck; rich, golden color.

BARTLETT. July. Well known old pear of fine quality. Does best in northern and western parts of the State.

CLAPP’S FAVORITE. July 10. Large, red; bears young.

DUCHESS. August. Fruit large, short-necked, fine quality.

GARBER. August. Tree most vigorous grower; fruit large, firm.

KIEFFER. September. The universal pear for America. Robust, handsome tree; fruit large and of good quality when fully ripe; one of the sure bearers; beautiful yellow color.

LE CONTE. July and August. Robust tree; luxuriant foliage; fruit, large, attractive.

APRICOT

Apricots do specially well when planted in back yards, or where they are cultivated only with hoe or spading fork for first few years. A tree planted in some odd corner will often produce several times as much as another planted in a well kept orchard.

Clustering 50 cents. $5.00 a dozen. June 20. Originated in our orchard, from Russian seed. Original tree has never failed to bear since it was three years old; of beautiful symmetrical growth, very vigorous and hardy; an enormous bearer. Fruit medium sized, yellow, with occasional fleck of red, and of excellent quality. Blooms late; has passed through six freezes in one season after blooming and still produced a heavy crop of fruit.

Sheridan. 50 cents. $5.00 a dozen. June. This is a seedling in the yard of Mrs. Sheridan, of McCulloch County, right on the high prairies. The tree has borne every year since it was three years old. It is large, of a beautiful yellow color, and of most delicious flavor.

Blenheim. May. One of the very earliest; has borne many profitable crops around Austin.

Early Golden. June 1. Large, beautiful, yellow, delicious.
GOLDEN DROP. May 25. Medium size, bright. One of the very best bearers.
HELMSKIRK. June 1. Tree very hardy; a regular bearer; good quality.
MOORPARK. June. Large; orange, with red cheek; productive.
ROYAL. June. Early, large, fine color and flavor. We received one order from California for twenty thousand trees.

APPLE

Texas is rapidly pushing to the front as an apple State. On the plains and in New Mexico is some of the best apple territory in the world. Fortunes are being made in this fruit, for which there is always a market, and which possesses the best of keeping qualities. While other parts of the State are not specially adapted to apples, we have a few native Texas varieties of our own introduction that are well worth planting.

SUMMER APPLE.

Astrachan, Becker, Early Harvest, Helm, Lincoln, Oldenberg, Red June, Summer Queen, Yellow Horse, Yellow Transparent.

FALL AND WINTER APPLE.

Arkansas Black, Ben Davis, Bismarck, Gano, Jonathan, Mammoth Black Twig, Missouri Pippin, Rutledge, Shockley, Talbot, Winesap.

ARKANSAS BLACK. Tree vigorous; fruit large, dark red—almost black. Winter.
ASTRACHAN. Summer. Large, bright red, crisp; tree healthy.
BEN DAVIS. Sept. 15. Large, beautiful red. While the quality is hardly up to that of some other apples, it is a money-maker.
EARLY HARVEST. July 1. Large, yellow, tender, juicy. Excellent quality.
GANO. Large, deep red, attractive, good; bears young, annually and prolific.
JONATHAN. Winter. Bright red, prolific, popular market variety.
MAMMOTH BLACK TWIG. Fall and winter. Similar to Winesap, but larger.
MISSOURI PIPPIN. Fall. Resembles Ben Davis, but slightly smaller and of better quality. It often bears full at two years old. For quick returns and certain money every year, we consider it has no superior over all the plains and Panhandle.
OLDENBERG. Summer and fall. This is the delicious russet-colored apple that Queen Victoria ordered from Western New York every year.
RED JUNE. June. Medium, bright red, in clusters.
SHOCKLEY. Fall. Large, productive, bears young; yellow overspread with red.
SUMMER QUEEN. July. A large yellow apple, slightly blushed and striped.
WINESAP. Fall. Medium size, solid red, highest quality; always in demand.

YELLOW HORSE. Best all-purpose summer apple. Large, yellow, sometimes with red blush, firm.

YELLOW TRANSPARENT. Very early; above medium size; good, productive.

CRAB APPLE.

These pretty little apples do well on almost all kinds of land. Often we have seen them growing to perfection when other apples failed entirely.

Price: Same as Standard Apples.

FLORENCE. July. Bears in clusters; yellowish, splashed and striped with red.

TRANSCENDANT. (Siberian.) July. An attractive yellow color, splashed and striped with red; bears very young. We value it highly for preserves. Buds and blossoms exquisitely beautiful.

BECKER. $1.00. Summer. Originated in Colorado County. One of hardest, most prolific, and surest bearers. Fruit attractive, light red, with white flecks. Excellent quality.

BISMARCK. 50 cents. Fall. Very large, handsome, red, fine quality. Bears young and regular crops thereafter. Has been in great demand south and west, and trees sent to Cuba a few years ago bore apples 14 inches circumference.

HELM. $1.00. July. From Lee County, and has made a reputation across the country north and west. Tree specially hardy and healthy. Fruit highest quality, bright red, with cream colored flesh. Trees young bearers. We consider this an unsurpassed variety.

LINCOLN. 50 cents. Summer. From Victoria County. Large, pale green, half covered with red; flesh cream color. Bears young and full, of finest flavor. Some of finest apples we ever saw were Lincoln grown on Red River.

RUTLEDGE. 50 cents. Fall. From Williamson County. Light red, striped. Has fruited for forty years. Best apples we saw in 1913 were Rutledge grown in Williamson County and near Alpine, Brewster County. A great favorite there.

PRUNE

Commencing west of Fort Worth, prunes are valuable on most locations all the way west to Pecos City and north through the Panhandle.

GERMAN. Flesh firm, greenish, very sweet.

GIANT. A prune of great size produced by Mr. Burbank; valuable, prolific. Bears young here.

GOLDEN. Light golden color; exquisite flavor.

ITALIAN. Suited to the South. Very popular.

TRAGEDY. Grows far south; rich, sweet; almost a freestone.

---

**FIG**

Figs should be planted more extensively. Do not let the sprouts or suckers grow, but prune the trees so as to have clean bodies at least two feet high. Such trees will bear full and will stand much colder weather than if the sprouts are allowed to grow.

**PRICE:** 20 cents, $2.25 a dozen, $15.00 a 100, $100.00 a 1000.

**BROWN TURKEY.** October. Large, bluish purple. Latest fig.

**BRUNSWICK.** July and August. Very large, rich brown.

**CELESTIAL.** July. The common little blue fig. None is sweeter, very hardy. Perhaps the best for Central Texas.

**GREEN ISCHIA.** July and August. Pale green, very sweet.

**LEMON.** Large, yellow, sweet.

**MAGNOLIA.** July. Very large, pale green or white; shape varies from ordinary fig shape to very short or flat; always bears at one year old, and, if frozen, will bear on the young wood the first year. In some sections it is called Neverfail.

**WHITE ISCHIA.** July and August. Transparent; deliciously sweet.

---

**CHERRY**

Not generally valuable in Central and South Texas, but popular toward the Panhandle.

**Price:** 40 cents, $4.00 a dozen, $30.00 a 100, except where noted.

**BALDWIN.** 75 cents, $7.00 a dozen. A Kansas variety considered very valuable.

**EARLY RICHMOND.** Early, bright red, acid. Tree strong grower.

**ENGLISH MORELLO.** Dark red, nearly black, very acid. Tree dwarfish.

**MONTMORENCY.** Large, red, acid. Rather late in ripening.
NECTARINE

Will flourish on any land adapted to the peach, and with the same cultivation, etc.

BRECK. 50 cents, $5.00 a dozen, $35.00 a 100. Originated from peach seed in the yard of Mrs. Breck, of Austin. We are the sole introducers. A duplicate of Honey Peach in size, shape, and delicious quality, but a perfect nectarine.

JUMBO. 30 cents, $3.50 a dozen, $25.00 a 100. Originated in Burnet County from a peach seed. On favorable locations it grows very large.

NEW WHITE. 30 cents, $3.50 a dozen, $25.00 a 100. Large size, white skin and flesh.

RED CLING. 50 cents, $5.00 a dozen, $35.00 a 100. Free from curculios and all insects. Large, sweet.

SUNSHINE. 50 cents, $5.00 a dozen, $35.00 a 100. Native yellow free-stone. Extra good.

ULIT. 50 cents, $5.00 a dozen, $35.00 a 100. A pure cling, consequently almost proof against the attacks of the curculio.

QUINCE

CHAMPION, MEECH, and ORANGE.
Price: 35 cents each, $4.00 a dozen, $30.00 a 100.

JAPAN PERSIMMON

Some of these should be planted by every family. The fruit often measures ten inches in circumference. They ripen in August, September and October. The trees bear young, and are very ornamental.

Price: 40 cents, $4.00 a dozen, $30.00 a 100.

HACHIYA. Very large, oblong, pointed; flesh yellow; skin red.

HYAKUME. Large, round; skin orange red; flesh brown or dark; very sweet.

OKAME. Large, oblate, carmine skin; clear yellow flesh; few seed.

TANE NASHI. Large, oblong; orange red; yellow flesh; generally seedless.

YEMON. Large, flat, tomato shape; red skin.

MULBERRY

Every farm should have mulberry trees about the back yard and where the chickens run. They make a quick, long-lived shade. They commence to ripen before peaches or plums and continue six or eight weeks. (For non-fruiting mulberry see Shades.)

ENGLISH (BLACK). April and May. Luxuriant. Bears at two years old; berry large.
HICKS. The old standard, everbearing variety. Tree very hardy.
MUNSON. One of the largest, most prolific of mulberries.
TRAVIS. (Everbearing.) Luxuriant, symmetrical and compact. Best of all mulberries for fruit. It is very large and sweet, and bears in greatest profusion. The original tree stands in Travis County.

---

GRAPE

Price: 15 cents each, $1.75 a dozen, $14.00 a 100, $120.00 a 1000.

AMERICAN GRAPES

The American varieties are those native to our country, including their hybrids, and crosses. Generally speaking, they are best adapted to those sections of the South not mentioned under the heading of Vinifera.
BLACK SPANISH. July. Medium to small, black berry; bunch large.
BRILLIANT. A most beautiful red grape of high quality, and a favorite.
CARMAN. Dark red, fine quality. For hardiness and regular crops, we consider this the equal of Herbemont and Black Spanish, and it is larger.
CHAMPION. June. One of the earliest; large, round, blue-black; vigorous.
CONCORD. July. Large blue or blue-black.
DELWARE. June. Medium to small, with very thin, tender, red or pink skin.
GOETHE. July. Large, oblong, pale amber color; sweet.
HERBEMONT. July. Medium size, round, black; not good when first it turns black, but delicious when thoroughly ripe; vine robust and long-lived.
MOORE’S EARLY. June. Vigorous vine, fruit large, black; very early.
MUSTANG. Native wild grape. Makes an everlasting arbor.
NIAGARA (White Concord). July 1. Large, amber-white berry; good quality.

VINIFERA GRAPES.

In recent years they have been found to succeed wonderfully in the southwestern and western portions of Texas, in New Mexico, Arizona and Mexico. The Pecos and El Paso sections of Texas are becoming as noted as the grape regions of California.
CHASSELAS. Large bunch and berry; amber-colored; sweet.
CORNICHON, BLACK. Berries large, oblong, dark. Good for shipping.
HAMBURG, BLACK. Bunches and berries large. Black, sugary, and rich.
MALAGA. Very large bunch and berry; white or pink-white.
MISSION (EL PASO). Medium size, black, deliciously sweet.
MUSCAT OF ALEXANDRIA. One of the best known of the white varieties.
THOMPSON’S SEEDLESS. Vines we sold in Arizona and New Mexico are proving of great value. Fruit larger than Sultana, and greenish yellow.
TOKAY, FLAME. Bunches large and compact. Berries large, light red.

GRAPES GRAFTED ON RESISTANT STOCK

For those sections troubled by Phylloxera, or root louse.
Price: 50 cents each, $5.00 a dozen, $35.00 a 100. Black Cornichon, Black Hamburg, Malaga, Muscat Alexandria, Flame Tokay.
No farm or city garden should be without a patch of black or dewberries. These are the surest crops that can be grown. They pay more per acre than almost anything else. We have realized as high as $1000.00 per acre, while the expense of working and marketing is very low. They ripen in the spring while the weather is cool and most pleasant for preserving and making jams and jellies.

**BLACKBERRY**

Price: 75 cents a dozen; $3.00 a 100; $20.00 a 1000, except where noted.

**DALLAS.** Combines all good points; large, fine quality. Early to mid-season.

**JORDAN.** $1.00 a dozen, $5.00 a 100, $30.00 a 1000. Bush vigorous, large sweet berries. Ripens after Dallas.

**SPALDING.** From Gonzales County. Bush strongest grower, fruit medium, very sweet. Early.

**DEWBERRY**

Price: Same as Blackberry.

**AUSTIN-MAYS.** May. Robust short vine. Fruit very large, prolific. Sure bearer.

**CHESTNUT.** Early, productive, extra quality.

**McDONALD.** Cross between dewberry and blackberry. Early, good shipper. A fine bearer, but sometimes needs other berries planted near to pollenize it, as Haupt, Rogers, or Chestnut. A patch of alternate rows of Haupt and McDonald makes the best combination we know.

**ROGERS.** Perhaps the earliest. Commercial favorite in South Texas. Large.

**SAN JACINTO.** $1.00 dozen, $5.00 100, $30.00 1000. Large, very early. Successful everywhere.

**WHITE.** April, May. Large and productive. White when ripe.

Ninety-one teachers and trustees of the Austin schools picking Haupt Berries in April from vines planted in June before. Note the masses of berries. The vines covered the ground entirely by August, and will pay $1000.00 an acre next spring. Best on earth and sweetest.
THE HAUPT BERRY

Price: 20 cents each, $1.50 a dozen, $6.00 a 100, $40.00 a 1000.

It is difficult to conceive of anything the equal of this berry. It never fails to bear full of large, sweet luscious berries. A cross between a dewberry and blackberry apparently, discovered by the late Colonel Haupt of Hays County. Originated in Wharton County.

We bought full rights and all stock of the Haupt about eight years ago, and have never been able fully to satisfy the demand. This year we hope to have plenty.

Reports from the coast across Texas into New Mexico and Arizona pronounce it the finest ever seen.

There are two or more slightly different strains mixed, and we always try to put some of each in every order, to help pollination.

Haupt can be planted almost any month in the year.

A HAUP T BERRY VINE

The same every year. Never plant McDonald berries without planting a row of Haupt beside them. It will polenize them and make them bear.
STRAWBERRY

Long summer droughts are hard on strawberries. Frequent cultivation and careful mulching are necessary. They do best on new land.
Price: 25 cents a dozen, $1.50 a 100, $10.00 a 1000.

EXCELSIOR. Very early; has proven profitable over a wide range of territory.
KLONDIKE. From Alvin to Illinois praised by all growers.
LADY THOMPSON. A great favorite with all growers. Mid-season.

KUMQUAT. The smallest of citrus fruits. Very successful in South Texas.
LEMON. Wonder or Ponderosa Lemon. Fruit several times as large as common lemons, of good quality. Can be grown in tubs, or outdoors, if protected from frost. Ornamental.
ORANGE, SATSUMA. Budded on Trifoliata. A Japanese orange very hardy over Southern Texas. Of real value; good quality; bears young.
POMELO (Grape Fruit). On hardy stock. Without a doubt, successful in South Texas.

MISCELLANEOUS

ASPARAGUS. Roots 50 cents a dozen, $3.00 a 100.
CURRANT. Best varieties.
Price: 20 cents each, $2.00 a dozen, $12.00 a 100.
GOOSEBERRY. Recommended for northern part of the State. Leading varieties.
Price: 25 cents, $2.50 a dozen, $18.00 a 100.
RASPBERRY, KANSAS and CARDINAL. These are fine, large raspberries, so far superior to other varieties that we sell no others. Ripen in May.
Price: $1.00 a dozen, $6.00 a 100.
CHINESE JUJUBE. Tree slightly resembling prickly ash; very hardy. Fruit chocolate colored, size of a large olive, somewhat resembles a date in taste; ripe July and August. We greatly enjoy this fruit. Every one should plant a few trees. They like a clean back yard, where they are not cultivated, but will grow anywhere.
Price: 1 1-2 to 2 feet, 40 cents; 2 to 3 feet, 60 cents; 5 to 6 feet, $1.00.

ALMONDS

MEDINA ALMOND. 50 cents, $5.00 a dozen, $30.00 a 100. A seedling in Medina County. As fine as any imported soft-shelled almond.
PRINCESS ALMOND. 30 cents, $3.50 a dozen, $25.00 a 100. Robust tree; almonds of fine quality.
SULTANA ALMOND. 30 cents, $3.50 a dozen, $25.00 a 100. A standard commercial variety, similar to above.
PECANS

A pecan grove is the biggest asset that one can possess. The industry is just beginning to assume importance and, as far as our judgment can reckon, it will never be overdone.

More and more every year buyers are searching the country for every available nut and the demand is increasing far more rapidly than the supply. Our native Texas sorts are doing well on nearly all upland, as well as the lowlands.

Nuts from our fine grafted and budded trees sell for 50 cents a pound and more. While all seedling trees will bear nuts, they do not produce true from the seed, and one can never tell what kind of fruit will be borne.

There is not a better shade tree in existence than the pecan, and the growth is not particularly slow, after the first year.

A good plan is to plant pecan trees between every other row of fruit trees in a peach or plum orchard, 32 to 40 feet apart. They become profitable as the peaches or plums are about gone.

OLIVER SEEDLINGS

Seedlings from our Oliver Pecan. Hardest, strongest growers we know. In nursery, one-third larger than other seedlings.

Price: One year, 50 cents each, $5.00 a dozen; 3 years, 5 feet, $1.00 each, $10.00 a dozen.

BUDDED AND GRAFTED PECANS

In planting budded or grafted trees, one knows they will bear the kind of nuts desired.

Prices: One year budded or grafted on 2 and 3-year-old seedlings:

Colorado, Halbert, San Saba, Schley, Success, and Texas Prolific, 50 cents per tree more than above prices.

Oliver, $2.00 each, any size.

COLORADO. 50 cents extra. Seedling of San Saba, larger. Prolific.

DAISY. Long, light colored, thin shell. Comal County.

DELMAS. Large, rather elongated. Young bearer.

FROTSCHER. Louisiana. Large, fine.

HALBERT. 50 cents extra. Coleman County. Good size and shape. Young, sure, prolific bearer. Scores high on every point.

HOLLIS. San Saba County. Large, plump. Good bearer.

KINCAID. San Saba County. Large, thin shell. Easy to propagate.

MOBILE. Long, good quality, good bearer.

OLIVER. $2.00 each. Kimble County. Largest we have seen. We bought sole right to sell it. Old tree has produced eighteen bushels in one crop, and is a constant bearer. Very large, luxuriant leaves. Nuts sell 75 cents and $1.00 per pound.

PEERLESS. Travis County. Large, round. Robust.

PABST. Georgia. Commercial favorite.

SAN SABA. 50 cents extra. San Saba County. Medium size, extra thin shell, quality best.

SCHLEY. 50 cents extra. Large, long, thin shell. Famous for its quality.

STUART. Mississippi. Large, plump, slightly elongated. Most general favorite over entire South and West.

TEXAS PROLIFIC. 50 cents extra. San Saba County. Fine, noted for bearing young. High quality.

VAN DEMAN. Large, long, widely planted in eastern Southern States.

ENGLISH WALNUTS (Budded)

The following are special and improved strains of the English or Persian walnuts. They give promise of succeeding in certain parts of the Southwest, especially when budded on our native stock.

Prices (budded on native Walnut): Each, Dozen. 100

FRANQUETTE. Starts growth late in spring, and stops early in fall.

Nut large, rather long.

MAYETTE. Nut round, very plump. Perhaps the very hardest.

SANTA ROSA. One of Mr. Burbank's crosses. A sturdy, peculiar looking tree. Nut large.

SEEDLINGS. 1 to 2 feet, 40 cents; $4.00 dozen.
Ornamental Department

MORE BEAUTIFUL HOME GROUNDS.

The world is awakening to the fact that beauty and satisfaction have a real value.

No matter who the reader may be, he remembers with fondness certain trees that grew around his childhood home. The very remembrance gives pleasure of a kind that can not be obtained with money.

Are you willing that your children shall have similar memories in future years?

Have your boys trees to climb now, and a miniature jungle to penetrate?

Have your girls a secluded corner in which to train up their dolls, and play keeping house?

The most experienced landscape men of these days have found out that back and side yards need more trees, evergreens, and shrubs than do the front yards.

If you were to see one with a grove of shades—a grove, mind you, not a straight row—and some shrubs, real masses just like wild thickets, you would never be satisfied with any other kind.

Nature does not plant in straight rows.

But after you were convinced as to the style of planting, you could not make a list that would be as beautiful and as much at home in your climate, as we could.

It is exactly our business (and our pleasure) to study the plans and arrangements that are the most beautiful, and then get acquainted with the plants and trees that will best develop or show the plan, using only plants adapted to the climate.
First, because we like the work, and second, because of the need for such work in our country, we offer our services as Landscape Architects.

If you send us $10.00, with a plat of your home grounds, showing size in feet, the directions, the residence and other objects, we make you a plan with list of stock to plant. If you take the stock, the $10.00 applies on the bill. If you do not take it, you have the plan, which you can use at your pleasure.

We have a booklet, "How to Make Your Home Grounds Beautiful," that will perhaps enable you to make your own plan. It is free.

It will set you to thinking, so you will plant white and pink, and white and yellow flowers together, and the red flowers against a background of green, and the trees that have the gorgeous yellow and red shades in the autumn in a group by themselves.

If shrubs and trees are properly planted, you can not name another way in which you can spend money that will add so much beauty, comfort, and value to your home.

Happiness has a value.
Plant something.

BULBS, LILIES, ETC.

These are so easily grown and produce such a gorgeous lot of colors that no home should be without them. They can generally be safely left in the ground over winter, or they may be taken up and left dry until early spring. They should be transplanted at least every two years for best results.

AMARYLLIS JOHNSONII. 50 cents each, $5.00 dozen. Gorgeous red lily, earliest.

CANNAS

10 cents each, 75 cents dozen, $4.00 100. Scarcely anything else can give the beauty and pleasure afforded by the best canna. Here is the best assortment to be had, at lowest prices.

CANNAS—RED FLOWERS.

FLAMINGO. Medium grower, hardy. One of best dark reds, constant bloomer.
LOUISIANA. Deep crimson. Grows 5 to 6 feet. Orchid flowers.
MRS. KATE GRAY. Orange red. Tall. Orchid flowers.
ATLANTA. Orange. Tall. Orchid flowers.
BLACK PRINCE. Rich crimson, 3 to 4 feet. Flowers stand high above foliage.
PILLAR OF FIRE. Orange red. Medium grower.
VIGER. More orange than Pillar of Fire. Medium height.
KING HUMBERT. Orange red, streaked with gold. Luxuriant.
EGANDALE. Dark red. Medium.

CANNAS—ORANGE FLOWERS.

INDIANA. Bright green foliage. Luxuriant.
WYOMING. Foliage dark bronze. Large orchid flowers. Luxuriant.

CANNAS—ORANGE AND RED FLOWERS.

ALLEMANIA. Large orchid flowers. Orange scarlet, spotted with golden yellow.

FLAMBEAU. Very luxuriant. Glowing vermilion, edged golden yellow.
FLASHLIGHT. Orange and red mottled. Rank grower.
MME. CROZY. Small grower. Vermillion with gold border.
MARVEL. Medium height. Brilliant colors.

CANNAS—YELLOW FLOWERS.

AUSTRIA. Tall. Canary yellow, with spots of red in throat.
BUBBNK. Tall, canary yellow, with throat mottled crimson.
MERCEDES. Like Austria, but with white spots.
CANNAS—PINK FLOWERS.

BETSY ROSS. Medium height, green foliage.
SHENANDOAH. Medium height, bronze foliage.
VENUS. Luxuriant, pink flowers marked with yellow.

FOLIAGE CANNAS.

MUSAFOLIA. Leaves dark green, with bronze edge. Very luxuriant.
KING OF BRONZES. Tall, rich bronze. Very luxuriant.

CHRYSANTHEMUM. 10 cents each, 75 cents dozen, $4.00 100. Yellow and white, best for outdoor planting. Hardy. Flowers medium size. Produce masses of blooms in fall.

SHASTA DAISY. 25 cents dozen, $2.00 100, $12.00 1000. Largest flowers, most constant bloomer. Wonderfully hardy.

DAISY (Native). Hardy, everblooming. Earliest and blooms all summer.

GLADIOLUS. 60 cents dozen, $4.00 100. Best strain of Groff’s Hybrids. All colors and shades.

HABRANTHUS. 10 cents each, $1.00 dozen. Beautiful red lilies, with dwarf stalks eight inches high, profuse bloomers in fall.

HOLLYHOCK. Assorted colors. 10 cents each, $1.00 dozen.

GERMAN IRIS, WHITE AND BLUE. 10 cents each, 75 cents dozen. Old fashioned Flags. Great profusion of flowers in early spring.

ANGEL LILY (Crinum Fimbriatum). 25 cents each, $2.50 dozen. Cluster of five to nine large white lilies, with faint wine colored shadings. Profuse, fragrant.

RAIN LILY (Cooperia Pedunculata). 50 cents dozen, $3.00 100. Native White Fairy Lily. Spring up and bloom in three days after rain.

DOUBLE DAY LILY. 25 cents each, $2.50 dozen. Rare, beautiful, double, orange and gold.

TRITOMA (Redhot Poker). 25 cents each, $2.50 dozen. Very striking and attractive. Glossy stems two feet high, orange-red flower spikes.

MEXICAN TUBE ROSE. 50 cents dozen, $3.00 100; $20.00 1000. Introduced by us from high, cool interior of Mexico. Single, prettiest, most fragrant tube rose known. Tall stiff stems. Blooms constantly from June till frost. Cut flowers keep a week. Very profitable near any town or city.
ROSES

We have some roses on their own roots, grown from cuttings in the greenhouse, and others which do best budded on other, harder stocks. In the case of budded or grafted roses, it is necessary not to allow the rose to grow from below the bud. The bud is usually indicated by a slight offset or elbow about where the branches of the bush begin, or somewhat lower.

Price: Largest, 35 each, 3 for $1.00; two years, 25 cents each.

AMERICAN BEAUTY. Bush. Red, large, fragrant.

BALTIMORE BELLE. Climber. Pink; hardy everywhere; spring bloomer.

BON SILENE. Bush. Pink, exquisite buds.

BRIDE. Bush. White, sometimes shaded with pink when grown outdoors.

BRIDESMAID. Bush. Pink; similar to Bride, but a dark pink.

BURBANK. Bush. Very bright, light and dark pink, variegated; profuse.

CHAMPION OF THE WORLD. Half climber. Pink; robust grower.

CLOTH OF GOLD. Climber. Clear, golden yellow.

CRIMSON RAMBLER. Climber. Brilliant red in great clusters, early in spring; beautiful foliage.

DINSMORE. Bush. Dark red; very large.

DOROTHY PERKINS. Climber. Gorgeous pink spring bloomer. An evergreen and most excellent for arbors or screens.

EMpress OF CHINA. Climber. Cherry red; hardy.

ESTELLA PRADeL. Climber. Pure white; one of the most constant bloomers.

ETOILE DE LYON. Bush. Yellow; robust.

FRANCES E. WILLaRD. Climber. Pure white, large; fine.

HELEN GOULD (Red Kaiserina). Bush. A dark rich pink; long stem; beautiful buds; most persistent bloomer.

CLIMBING HELEN GOULD. Climber. One of the finest pink climbers.

JOHN HOPPER. Rich solid pink; immense; full flowers, stems three to four feet.

KAISERINA. Bush. White. Long, pointed buds, full when open; flow- ers last well; long stems. For an outdoor white rose it has no rival.

CLIMBING KAISERINA. Climber. Elegant, pure white. Robust vine.

LA FRANCE. Bush. Light pink; full; fragrant; universally popular.

RED LA FRANCE. (Duchesse of Albany). Bush. Similar to above; darker pink.

WHITE LA FRANCE. Bush. Very pale pink; hardly as full as La France.

LA MARQUE. Rampant climber; pure white; a standard all over the South.

McARTHUR. Bush. Strong grower, tall, large, red.

MADAM MASSON. Bush. Very large and double; intense red; uniform in size and color; extra long stems. For a red rose we plant it first.

MADAM C. TESTOUT. Bush. Soft pink; profuse.

MAlMAISON. Bush. Light pink; extremely double; fragrant; stiff stems.

MAMON COCHET. Bush. Pink.

MARECHAL NEIL. Climber. Most popular of all climbers; rich deep yellow; fine plants on own roots, and budded on hardy stock at
Beautiful PINK PEARL REINE PAPA CLIMBING MARTHA WHITE YELLOW VICK'S WHITE W. R. TIPLITZ. exception SUNSET. SAFRANO. QUEEN'S LILAC. JAPAN CLIMBING effects DEUTZIA. POINCIANA. PRUNUS POMEGRANATE, MOCK JASMINE SPIREA POMEGRANATE, WHITE Althea Althea Altheas, Price: FLOWERING E. A. A. RICHARDSON. Price: FLOWERING 50 cents each, $3.00 a dozen, $20.00 a 100, except where noted. We use our list of flowering shrubs in producing the best landscape effects to a greater extent than any other class of trees, with perhaps the exception of certain evergreens.

ALTHEA (Rose of Sharon). Nothing more hardy; many colors, blooms all summer. Specially suited to dry sections, blooming almost with no water.

Altheas, Pink, Purple, Red, Variegated, and White. All double.

CAPE JASMINE. Two feet, 50 cents, $5.00 a dozen. Smaller, 35 cents each, $3.50 dozen. Beautiful evergreen, fragrant flowers.

CRAPE MYRTLE. Well known, old favorite. A glow of color. Pink and scarlet, regular prices. White, 50 cents each, $5.00 a dozen.

DEUTZIA. Beautiful, double, white flowers, tinged with pink.

JASMINE Nudiflorum. Beautiful shrub, with bright green leaves and stems. Fragrant yellow flowers. Hardy, desirable.

JASMINE Officinalis. Much like above, but with fragrant white flowers. Will climb, when supported.

WHITE LILAC. Budded, 50 cents, $5.00 a dozen.

MOCK ORANGE (Philadelphus). Beautiful white, fragrant flowers.

PITTOSPORUM, Tobira. Very fine, evergreen shrub. Suitable for trimming. 35 cents each, $3.60 per dozen.

POINCIANA. Dwarf. Very hardy; five to six feet. Covered with panicles of yellow flowers, with brilliant red stamens. Striking.

POMEGRANATE, FLOWERING. Double. Pink, red, and white.

POMEGRANATE, FRUITING. Best and constant bloomer. Fine fruit. Best for landscape effects.

PRUNUS PISSARDII. Red-leaved plum. Fine in masses.

SPIREA (Bridal Wreath). Single and double; a bank of white in spring.
TAMARIX (Improved Salt Cedar). Medium size, regular price. Larger, 4 feet and over, 40 cents each, $4.00 a dozen. Hardy, graceful, grow anywhere. Following are three best kinds of some fifteen in existence:

- Tamarix estivalis. Beautiful plume like foliage, with profuse pink flowers.
- Tamarix Japonica plumosa. Becomes medium size shade tree. Each limb a mammoth plume of feathery-like green. Every landscape needs them.
- Tamarix Odessana. All summer bears great racemes of bright pink flowers, backed by delicate foliage.

VITEX. Very hardy, growing 6 to 10 feet. Large spikes of blue flowers.

FLOWERING WILLOW (Chilopsis linearis). Natives of dry Western Texas and New Mexico. Constant bloomers, May till fall. Lace-like flowers in clusters. Purple, lilac, and white. Tree reaches 20 feet.

---

CLIMBING VINES

Price: 25 cents each, $3.00 a dozen, $20.00 a 100, except where noted.

- ANTIGONON LEPTOPUS. 15 cents, $1.50 a dozen. A perennial vine with sprays of glowing pink flowers all summer.
- CLEMATIS COCCINEA. Red, coral-like, bell-shaped flowers; all spring and summer. Hardy. Very dainty vine for trellising.
- CLEMATIS CRISPA. Like the above, but flowers are blue.
- CLEMATIS PANICULATA. Strong growing vine, with white, star-shaped flowers all summer and fall. Very fragrant.
- CLEMATIS Greybeard. A hardy climber, with white flowers in early season.
- HONEYSUCKLE, EVERGREEN. Fragrant, white and yellow flowers; dense, rank, evergreen foliage; the best for shades or screens.
- HONEYSUCKLE, RED CORAL. Coral-red flowers; commence to bloom early.
- ENGLISH IVY (Hedera Helix). Clings to stone, brick or wood. Hardy, with thick, dark green leaves.
- JAPAN OR BOSTON IVY (Ampelopsis Veitchii). Hardy wall creeper. Foliage shows rich shades of red and yellow in the fall.
- JASMINE, CONFEDERATE OR MALAYAN. A beautiful, hardy evergreen climber. Flowers white, dainty and fragrant.
- TRUMPET CREEPER (Tacoma). Rampant vine that clings to any wall or tree like an ivy; trumpet-shaped flowers three inches long; varieties, red and yellow.
- VIRGINIA CREEPER (Ampelopsis Quinquefolia). Rank growing vine, covering walls of wood or brick, tree trunks, etc.
- TEXAS VIRGINIA CREEPER (Ampelopsis quinquefolia texana). In leaf earlier each season, and has much brighter green leaves all summer. Leaves smaller. Creeps on wood or stone more closely than any vine we know.
- WISTARIA. Hardy, woody vine that soon runs 50 feet; fragrant flowers in early spring; purple and white.

---

BEAUTIFUL HARDY NATIVE SHRUBS

We would choose the natives over the same number of any other plants, except perhaps roses. They are indifferent to drouth or disease, and produce the grandest effects possible. The natives are our specialty.

Price: 35 cents each, $3.50 dozen, $25.00 a 100, except where noted.
ALGERITA or CHAPARRAL (Berberis). Evergreen shrub, 3 to 5 feet. Leaves dark green. Bright red berries make a striking appearance in spring, are acid, good-tasting, and used for jelly.

CORALBERRY. Coral red berries in winter.

ELDERBERRY. Trusses of white flowers in summer.

EUPATORIUM. Wonderfully fragrant white flowers in fall.

GOLDENROD. 10 cents each, 75 cents a dozen. Tall spikes yellow flowers in fall.

HELIANTHUS, Maximilianii. 10 cents each, $1.00 a dozen. Large yellow flowers, with yellow centers, stems five to seven feet. Most effective in all kinds of plantings.

HUISACHE (pronounced wee-satch) Acacia farnesiana. 50 cents, $5.00 a dozen. Medium tree, beautiful fern-like foliage. Gorgeous display yellow flowers all spring.

MALVAVISCUS. 25 cents each, $2.50 dozen. Heavy green leaves, scarlet flowers all summer. Thrifty everywhere. Excellent for low borders and backgrounds.

MOUNTAIN LAUREL (Sorbaria). Dark evergreen. Fragrant blue flowers, like Wisteria. 50 cents each, $5.00 a dozen.

PAVONIA. Two feet, hardy, covered from spring till winter with bright rosy-pink flowers. A fine thing.

PARKINSONIA. 50 cents each, $5.00 a dozen. Reaches 15 feet. Foliage like Mesquite. Glow of yellow flowers all summer.

REDBUD. Covered with purplish-red flowers very early in spring.

STANDING CYPRESS. 50 cents a dozen, $3.00 a 100. Two to four feet. Dainty foliage, spikes of coral red flowers. Very beautiful.

SUMACH. Large leaf, called Staghorn, 50 cents each, $5.00 a dozen. Leaves produce exquisite autumn colors in red, green, and yellow.

SUMACH Evergreen. Hardy native, grows about six feet high. Foliage shows beautiful shades all winter. A really grand and valuable addition.

### Yucca, Sotol, and Century Plant

Natives of the Southwest, especially the arid regions, they are adapted to this section. Very valuable in ornamental plantings.

CENTURY PLANT (Agave, Maguey, or Pulque plant of Mexico). Plants with leaves, 4 to 6 inches, 35 cents; 10 inches, 50 cents; 18 inches $1.00.

**YUCCA TRECULEANA.** With stem one foot, $2.00; 2 feet, $3.00; 3 to 4 feet, $5.00. Spanish Dagger. Stem grows 6 to 20 feet, then branches into large head of dark green leaves.

**YUCCA, RUPICOLA.** Medium size, $1.00; larger, $1.50. Like Treculeana, but has no stem.

**YUCCA, FILAMENTOSA.** Medium size, $1.00; larger, $1.50. Flowers borne on stalk six feet high. Threads or fibres detach from sides of leaves, giving ashen gray appearance.

**RED YUCCA** (Hesperaloe parviflora). Medium size, $1.00; larger, blooming size, $2.00. Very rare. Leaves smooth, free from needles. Flower stalks five feet high, bearing scapes of coral red flowers all summer. Very beautiful.

**SOTOL.** Dasylirion. Leaves, one foot, $1.00; 18 inches, $1.50; 2 feet, $2.00. Leaves light evergreen. Resembles Bear Grass. Most hardy, beautiful, desirable for every planting.
PALMS

All hardy for outdoor planting.

WASHINGTONIA FILIFERA. Fan-leaved, hardy. Grows 20 feet.

WASHINGTONIA ROBUSTA. Much like Filifera, but hardier.

SABAL MEXICANA. Native in Southwestern Texas. Stands more cold than either of above. Leaves fan-shape, tree reaches over 20 feet. Does not freeze back at Austin.

SPINELESS CACTUS

We have the only kind yet known that will stand freezes at Austin. Will probably grow in North Texas. We have tested all kinds introduced, including Mr. Burbank’s. This is the only one we consider worth while, except where there is no frost. A very valuable plant for forage. Multiplied by laying slabs on top of ground.

Price: Slabs, 25 cents each, $2.50 a dozen, $18.00 a 100.

**EXTRA HEAVY TREES**—In nearly all kinds of shades, we have extra heavy trees which we can supply. Prices furnished upon inquiry.

**TOPS CUT BACK.** Shade trees should have the tops severely cut back. If the top is left on, the extra express charges amount to a considerable sum. Unless expressly requested to do otherwise, we shall cut tops of the larger shade trees before they are shipped. This is better for the trees, the customer and the nurseryman.

**ASH.** Beautiful, clean, adapted to nearly all soils.

**BOX ELDER.** Handsome, quick-growing tree.

**Catalpa, Japan.** Leaves larger and trees more healthy than common Catalpa.

**China, Umbrella.** 15 cents per tree extra. Quick growing; dense, round top.

**Cottonwood.** A rapid grower on rich land.

**Cypress, Native** (Taxodium distichum). 1 to 6 feet, 50 cents a foot. On the mountain streams west of Austin, reaches a diameter of eight feet. A grand, stately tree.

**elm.** The long-limbed, fast-growing American Elm grows well on any ordinary soil.

**Hackberry.** One of the hardiest trees in existence. On poor land or very dry locations it is to be recommended.

**Japan Varnish.** 2 to 6 feet, 15 cents a foot. A stately, hardy, tulip-leaved tree from Japan; smooth, green bark.

**Koelreuteria Paniculata.** Reaches 25 or 30 feet. Green bark, and large bright leaves. Has yellow flowers. Endures drought.

**Ligustrum, Japan.** See Evergreens.

**Honey Locust.** A duplicate of the old Honey Locust without its thorns.

**Locust, Black.** Especially in the Panhandle and on the plains, this is one of the most satisfactory shades.

**Maple.** Desirable north and east.

**Mulberry, Non-Bearing.** A desirable long-lived shade; thrives on poor soil and in dry climates.

**Pecan.** See under Pecans.

**Oak, Live.** 2 to 6 feet, 15 cents a foot. The native evergreen oak. A beautiful tree. Well rooted, nursery grown.

**Texas Umbrella China.**
PAULOWNIA, IMPERIAL. 15 cents a foot. A tree from Japan that somewhat resembles a catalpa. Leaves very large, sometimes measuring 22 inches across; panicles of light blue flowers.

POPLAR CAROLINA. Resembles cottonwood; branches more slender and leaves slightly smaller. Should be largely planted.

POPLAR, LOMBARDY. Graceful, tall, slender; gives fine effect.

POPLAR, SILVER-LEAFED. Leaves white on underside and, when stirred by breeze, the tree seems laden with white flowers.

SYCAMORE, AMERICAN. One of our most reliable and satisfactory shades for all kinds of soils and locations.

WALNUT, BLACK. Should be planted for shade and timber.

WEEPING WILLOW. 35 cents; large, 50 cents. At the back of most lawns or landscapes a willow generally gives a pleasing, quiet tone.

---

EVERGREENS

If one asked us how to spend a few dollars to bring the most good, we would say, besides planting some Haupt Berries, to plant some evergreens, for windbreaks or screens. Every home on the prairies should have a grove of Chinese Arbor Vitae or other evergreens on the north side of residence and barn lot. Plant some where the chickens run. They protect from the sun in summer, the cold and wind in winter.

Dug and Packed With Ball of Earth.

Most evergreens can be more safely transplanted when dug and packed with ball of earth about the roots. For this, we charge 50 per cent additional to regular price.

CHINESE ARBOR VITAE. (Biota orientalis). Fast grower, always green. Good for specimens, screens or windbreaks. Selected specimens, 1 foot, $.20; 2 feet, $.30; 3 feet, $.50; 4 feet, $.75; 6 to 7 feet, $1.00. Large, 18 feet, with high pruned bodies, $10.00 to $20.00 each, according to individual tree.

BONITO ARBOR VITAE. 10 inches, $.60; 15 inches, $.80; 18 inches, $1.00; 2 feet, $1.25. Originated in Comal Springs Nursery. A perfect globe, easy to transplant. Rich, dark green.

COMPACT ARBOR VITAE. Compact, even outline, pure green. 1 to 4 feet, $.40 a foot.

PYRAMIDAL ARBOR VITAE. 1 to 4 feet, $.40 a foot. Symmetrical, upright, elegant form. Finest strain in existence.

ROSEDALE ARBOR VITAE. 1 to 4 feet, $.50 a foot. Feathery, pale-green foliage. For screens, hedges, or single specimens.

BOX, BOXWOOD, OR BOXTREE. Old favorite, glossy leafed, compact. One year plants, for hedges, $.20 each, $2.00 dozen, $15.00 100. 1 to 2 feet, $.50 a foot; 3 to 4 feet, fine sheared specimens, $.75 a foot.

CEDAR, RED. 1 to 5 feet, $.40 a foot. Nursery grown.

CEDRUS DEODARA. 1 to 3 feet, $.50 a foot. Pale green, hardy, very graceful. Reaches 40 feet, growing cone-shaped.

PYRAMIDAL CYPRESS. 1 to 3 feet, $.40 a foot; 4 to 6 feet, $.50 a foot. Slender, tapering form.

EUONYMOUS JAPONICA. Very hardy, easy to transplant. Round, dark green, glossy leaves. Can be sheared into any shape. Price, one year, for hedges, $.20 each, $2.00 a dozen, $15.00 a 100. Large selected specimens, 1 foot, $.50; 2 feet, $.75.

---

LIGUSTRUM JAPONICUM

(Japan Privit). The smooth-leaved evergreen, shown so beautifully on plazas in San Antonio, and along drive in front of State Capitol. Grow to be nice shade trees, or may be kept as shrubs, if desired. Bright green, winter and summer, with black berries at Christmas. We have largest stock in the world. No tree ever came so into popular favor as the Ligustrum in the last five years.
LIGUSTRUM JAPONICUM (Japan Privit).

HEDGES

The planting of hedges, screens and windbreaks is becoming more popular every year, and justly so. They add beauty by making backgrounds, against which to plant smaller shrubs and plants, or by hiding undesirable views. They give comfort by breaking the cold winds from house or barns.

ALTHEA. $10.00 a 100. Mixed colors. The most hardy of all flowering shrubs.

CHINESE ARBOR VITAE. Every prairie farm should plant a row or double row on north side of barn lots, and a grove for chickens. Price, 1 foot, $18.00 a 100; 2 feet, $25.00 a 100; 3 feet, $32.00 a 100; 4 feet, $42.00 a 100; 5 feet, $50.00 a 100; 6 feet, $60.00 a 100.

ROSEDALE ARBOR VITAE. Small, one year plants, $15.00 a 100; 2 feet, $50.00 a 100. For description, see Evergreens.

BOX. 1 year plants, $15.00 a 100. An old favorite, glossy leaved, compact.

EUONYMOUS JAPONICA. Evergreen, $15.00 a 100.

POMEGRANATE. $10.00 a 100. Very attractive; nearly evergreen.

CALIFORNIA PRIVET. For a quick uniform hedge. These and most hedge plants should be cut within three inches of the ground when planted, for best results. Price, 1 foot, $5.00 a 100; 1 to 2 feet, $7.00 a 100; 2 to 3 feet, with heavy branches, $9.00 a 100; 3 to 4 feet, heavy, bushy, $10.00 a 100.

McCARTNEY ROSE. 25 cents; $20.00 a 100. Single white flower. Bright evergreen.

CHEROKEE ROSE. $10.00 a 100. Glossy evergreen; strong grower. Fine windbreak, or can be sheared as desired. Pink flowers.

ORNAMENTAL GRASSES

BAMBOO. 25 cents. Grows ten to twenty feet high, even on uplands.

LEMON GRASS. 25 cents each; $2.00 a dozen.

MOCK PAMPAS (Erianthus Ravennia). 25 cents. Plumes two feet long, resembling genuine Pampas. Height, 7 to 10 feet.

PAMPAS GRASS. 25 cents; $3.00 a dozen. Grows five to six feet. Its fluffy, white plumes, two feet in length, make it the most striking of all grasses.

UMBRELLA GRASS. Very beautiful, growing about three feet high, many stalks from each root, with umbrella-like tufts of leaves at top.

ZEBRA GRASS. 25 cents. Three to four feet. Green, with light stripe.

DISTANCES FOR PLANTING.

Standard Apples .................. 20 to 25 feet apart each way
Standard Pears .................... 20 to 30 feet apart each way
Peaches, Plums, Apricots, etc. ... 20 to 24 feet apart each way

TEXAS BELL TOMATO

The most valuable vegetable we know of. The fruit is not large, but the best flavored tomato we have ever seen. It begins to ripen with the earliest, and the vines are loaded every day till frost. It does not rot.

We have tried this plant in different states and under all conditions of climate and moisture, and it excels everywhere. For family use, it is unsurpassed. The tomatoes are the right size for slicing in halves, to be eaten.

No home in the South can afford to be without this tomato.

Price, seeds, per packet, 50 cents, 3 for $1.00.
PECANS. Young grafted trees of these have borne in the different sections of Texas.

Our best efforts are made to please all customers.
